

## Declaration

The client of our company ,<iRay Technology Co. Ltd.> ,apply for certification with operation frequency below:

Operation Frequency:	2.4GHz Wifi: 802.11 b/g/n(HT20): 2412MHz-2462MHz 802.11n (HT40): 2422MHz-2452MHz  5GHz Wifi: 802.11a/n(HT20)/ac(HT20): 5180-5220MHz, 5745MHz-5825MHz 802.11n(HT40)/ac(HT40): 5190MHz, 5755MHz-5795MHz
----------------------	---

They decrease the frequency band by software controlling. No other radio parameter changes to the power of the device or any grant RF parameter due to the decreased frequency.
